

OILS and ACIDS

Tall Oil Fatty Acids	Lauric Acid	Tung Oil
Distilled Tall Oil	Palmitic Acid	Raw & Boiled Linseed Oil
Tallow Fatty Acids	Dimer Acids	Castor Oil
Coconut Fatty Acids	Oleic Acid	Food Grade Oils
Crude Coconut Oil	Stearic Acid (Single/Triple)	Silicone Oils
Edible (76 degree) Coconut Oil	Monomers	Naphthenic/Paraffinnic Oils
Soy Methyl Ester	Methyl Soyate	Soybean Oil

TERPENES

Pine Oil (Registered & Non Registered)	Dipentenes / Terpinolenes
Orange Terpenes	D-Limonene

OTHER ORGANIC & INORGANIC CHEMICALS

Lauryl Alcohol	PEG 200,400,600
Tergitol L61	PG
Ethylamines (AEEA,DETA,EDA,AEP,etc.)	DEG
Diacids	Sodium Xylene Sulfonate (Replacement)
TAM's (Ethoxylated)	DOSS (70% & 75%)

CONCENTRATES and BLENDS

Pine Cleaner Concentrate	40% Coconut Hand Soap
--------------------------	-----------------------

OTHER SPECIALTY CHEMICALS

Defoamers (Silicone and Silicone Emulsions)	Lime Mud Additives
Defoamers (Water, Oil, Silica or Ester based)	Alkali Swellable Thickeners
EBS or Silica Defoamer Base Material	Biocide (Proxel GXL replacement)
Food Grade Defoamers	Peg Esters
Coatings Defoamers (Industrial & Paper)	Methyl Esters
Concrete & Asphalt Release Agent	Tergitol L61

TREATED SILICA

Fumed Silica (8 grades)	Precipitated Silica (16 grades)
-------------------------	---------------------------------

Nottingham Company has a full service lab with capabilities for analysis, on a wide variety of provided samples, or to assist you in your formulations. In addition, Nottingham Company has several reactors, blending vessels, and storage facilities from which we can provide a special service to your company. If you currently have products or services you would like to outsource, please inquire at (404) 351-3501 or fax to (404) 351-7731.
